www.castles.org is the premier website of Castles of the World, Inc. which offers you all the information you ever wanted to know about castles including castle hotels. It even offers you a section where you can "build your own castle". But until you can build your own castle, you can now choose among two tours of the most historic and well-known castles of the world. Along the way you will also get a chance to visit other famous sites such as the Eiffel Tower, the Cathedral of Reims, and enjoy an evening of traditional German folklore in Munich.

Among the castles to be visited are the famous Neuschwanstein and Chambord Castles as well as the stunning Palaces of Versailles, Fontainebleau and Chenonceau, just to name a few. This 15-day tour spans the countries of France, Germany, Luxembourg, Belgium, and Austria.
